

Apply at HomePartners.com

- Prospective households start the process by filling out a Pre-Qualification Application that checks key issues. If the Pre-Qualification Application is approved, the prospective household will be required to submit a Full Application for a full credit and background check. If a Full Application is approved, Home Partners will outline the maximum monthly rent of the home for which the prospective household qualifies.

Find a Home Partners qualified home

- Prospective households will work with a REALTOR® to find a Home Partners qualified home.
- Once a home is identified and approved by Home Partners, Home Partners will attempt to purchase the home- the outcome of which will depend on certain conditions being met such as agreeing on a purchase price with the seller, a satisfactory inspection, attorney review of the purchase contract, and other closing conditions being satisfied.

Home Partners purchases the qualified home

- Once Home Partners' offer for the home is accepted by the seller, prospective households will be required to sign a one year lease for the home as well as a Right to Purchase Agreement.

Right to Purchase

- The household has the right to purchase the home at any time during their residency at the pre-set purchase price. If the household chooses not to renew the lease, they can walk away without penalty.

* This is a 3 year program in Texas.
